

Dear Big Yellow Bus Riders,

The Prosser School District Transportation Department is looking forward to transporting your students again this year. List below are the current routes that we have available for this year.

Due to the nature of our business, we need your assistance with transporting your children. Listed below are some important issues that we deal with each year:

Students need to be at the bus stop a minimum of five (5) minutes before the bus is due to arrive. This helps the bus driver keep their schedule and makes it so no other students are waiting longer than necessary. Each driver has a schedule that they are to meet each day, so your help with having your students ready and waiting for the school bus is greatly appreciated.

After school, the drivers need to know that you are home to accept your students, so please be available for the driver to see you when your student gets off the school bus.

Unfortunately, we do experience bus breakdowns. If your bus has not arrived on its scheduled time or five (5) minutes later, you are welcome to call the Transportation Dept at 786-2630 to find out what the delay time is.

During inclement weather, the bus drivers travel at the rate of speed they feel is safe to transport your children, so there may be times that in bad weather (i.e., heavy rains, snow, freezing rain, winds, etc.) they fall behind schedule. Again you are welcome to contact the Transportation Department, or otherwise normally they will be there as soon as possible.

Again, we want to thank you for the opportunity to transport your students.

Transportation Department
